

**Amendments to the Specification:**

Please replace paragraph [0021] with the following amended paragraph:

In the first and second embodiments, the porous fuel diffusion member is formed of a carbon-plastic composite. Particularly, the porous fuel diffusion member may include carbon or graphite impregnated therein. The porous air contact member is formed of a ~~carton-plastic~~ carbon-plastic composite and may have a plurality of channels for the flow of air on its bottom. Preferably, the electrical connection member has a shape of a mesh.
